PROFESSIONAL PROFILE

Junior Full Stack Developer with solid training in React.js, Node.js and modern web development technologies, backed by a Higher Degree in Web Application Development (DAW). Trilingual (Spanish, Russian and English), with international experience and skills in attention to detail, problem solving and effective communication. My goal is to add value as the bridge between code, product and people.

WORK EXPERIENCE

Mobile Application Developer (Erasmus)

Franciszkanie | Katowice, Poland | 2025

- Developed a mobile app with Vue.js and Capacitor, integrating QR scanning to enhance the historical exploration experience.
- Implemented a responsive interface optimized for mobile devices.
- Collaborated in an international environment using agile methodologies and English communication.
- Performed functionality testing and debugging in production.

Mechanical Assembler

Margon | 2023 - 2025

- Interpreted complex technical blueprints with meticulous attention to detail.
- Developed problem-solving skills under pressure and logical thinking.
- Strengthened transferable competencies: technical documentation and quality.

Waiter

Nicalbar | 2021 - 2023

- Managed multilingual customer service (ES/RU/EN).
- Handled payments, POS systems and cash closing with financial precision.
- Worked under pressure developing multitasking and adaptability.

EDUCATION

Higher Degree in Web Application Development (DAW)

Joaquim Mir | 2024 - 2026

Blockchain Development Bootcamp

Conquer Blocks | 2024 - 2025
